

SECRET

14 August 1964

Rita:

Here is a "surprise" package. Do you recognize it?

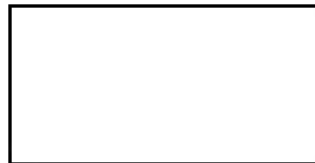

Your suggestions before going on leave motivated me to start on a new version of a report to [redacted]

25X1

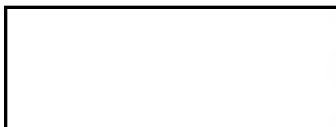

Attached is the beginning of such a report. I believe I would like to follow the general outline proposed by Fred. (See yellow sheet attached). I think I have ~~added~~^{used} a lot of your material already. I believe that we can use excerpts from the Quarterly Report that Hazel prepared as the basis for showing status on each element of our program together with the Charts that Hazel developed. In this way, I believe we can, for instance, show current status and also reflect some of our past accomplishments.

If you have time how about trying your hand at what I have started. On the other hand, if my notes are too fragmentary and my ideas too vague, wait til I return.

Good luck!

25X1

"The Package"

3 copies -

to the [redacted] inquiries attached
file copy.
Reference material under separate
clip.

Ready for your perusal,
signature and transmittal memo.
